WELCOME!

Thank-you for your interest in our exciting products. N.E.W.S. (Northeast Educational Warehouse & Services) sells only what we believe to be the finest self-instructional curriculum available for private and home schooling.

We recommend the A.C.E. / School of Tomorrow program for all grade levels, Pre-K through high school, along with several elective courses and programs that compliment our basic program. This is one of the most easily administrated programs available to homeschooling parents and Christian Schools. The program is self-instructional for the student, and requires almost no preparation time on the part of the supervisor, parent or teacher. The primary job of the parent is supervising, motivating and grading the tests completed by the student. There are no lesson plans to prepare with this program!

Our curriculum includes five major academic disciplines: Mathematics, English, Social Studies, Science, and Word Building (traditionally called spelling). Each curriculum grade-level course consists of 12 "PACES". Video and computer enhancements are available for selected courses. Normally, a student will complete 65 to 70 PACES in one academic year; however, this will vary according to the student's ability and motivation.

School of Tomorrow Diagnostic Testing

All students who have learned to read including high school students, should be tested for accurate academic placement. Although these tests only cover material presented through the eighth grade level in the School of Tomorrow curriculum, they are necessary to identify learning gaps. Parents can administer and grade the diagnostics at home. The results are either mailed or phoned in to N.E.W.S. Precise, student--specific curriculum packages are then shipped quickly; often the same day!

Whether a high achiever, under achiever, or a moderately paced learner, our educational program begins at the student's ability level. Individualization makes it possible for each student to master the subject matter at hand before moving on. Such mastery is the foundation upon which all future learning is built. Individualization produces academic excellence.

You will find our program to be an extraordinary Education tool. Students are prepared for tomorrow's world while learning traditional moral values for today. Call for Special Christian School Discount Prices!

We will accept most major credit cards. Any checks returned to us by the bank will be charged an additional \$35.00 fee. Our return policy is a full refund within 10 days. After 10 days we charge 20% restocking fee. No shipping & handling refunds unless it is our error. After 30 days we will buy the curriculum back at \$.50 per PACE or score key. Please call before returning any curriculum. All returns should have a copy of the invoice with them.

The A B Cs Reading Readiness Test

The A B Cs Reading Readiness Test is for children ages 5-8 who have not begun schooling or cannot yet read

A child who scores 80% or higher on The A B Cs Reading Readiness Test is usually ready to begin the A B C program.

Children under the age of five and those students who score less than 80% on The A B Cs Reading Readiness Test should complete Preschool with Ace and Christi before beginning the A B Cs with Ace and Christi program.

Preschool Program

Kindergarten with Ace and Christi is a reading readiness program that helps the child develop the academic and physical skills needed to be successful in reading. (Kindergarten with Ace and Christi may teach a child to read but the main purpose for this program is to prepare the student for that experience.)

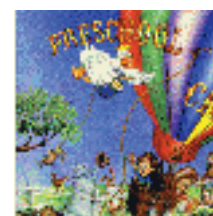

Kindergarten with Ace and Christi is an easy-to-use program that will guide you and your child through a complete scope and sequence of the concepts and skills that are needed to prepare your child for reading .

Each child will work through sixty PACEs filled with animal pictures, activities and full color picture stories which help the child develop a desire to learn to read. The Kindergarten with Ace and Christi program also teaches children social skills, the wonders of God’s world and the reality of God’s love. After completion of the Preschool program, most children are ready to learn to read if they have not already learned to do so.

Languages

Auralog publisher of the award-winning language software TELL ME MORE® is the first company in the world to apply speech recognition technology to language learning software.

The TELL ME MORE® immersion method is based on years of academic research and is aligned for ease of use. The program centers on developing the specific skills needed to succeed in learning a language, including: reading, writing, listening, speaking, vocabulary, grammar, and culture.

TELL ME MORE® offers more hours of content, in a wider variety of activities and skill levels, than any other program available. Equally effective for the beginning learner or the advanced speaker, TELL ME MORE® promotes advancement at all stages of language learning.

Spanish (Spain & Latin America) (\$250.75) * English (ESL) (\$250.75) * French (\$250.75)
German (\$250.75)* Italian * (\$250.75)
Dutch (\$165.75) * Chinese (\$165.75) * Japanese(\$165.75) * Arabic (279.65)

Each language is a complete 4 year course

School of Tomorrow's Spanish 1 course consists of 13 DVD'S, twelve Activity Pacs, and four scoring keys. The video presentation is outstanding. Two fluent Spanish speakers truly teach the lessons. The videos also make use of technological enhancements such as graphics for vocabulary and superimposition of images of other scenes and places as new vocabulary is introduced. They also vary the "stage setting," sometimes bringing in additional "actors" to present new vocabulary. Students hear Spanish so much on these tapes that it greatly enhances their pronunciation and listening skills; they will get far more auditory exposure with this course than they will get with most other courses available to home educators. Careful attention to pronunciation, common and uncommon usage, geographical variations, and other details of actual language usage make this course especially practical.

Alpha-Omega Spanish I

This course establishes appreciation of Spanish as well as basic confidence and skills in reading, writing, and speaking the Spanish language. Students learn vocabulary and basic word order through typical Spanish conversations in various settings, such as the home, school, and town. Printed materials emphasize reading comprehension and writing. Audio tapes are required for listening and comprehension activities. Grades 9-12.
